PUT OUR PEOPLE TO WORK WITH YOUR TEAM FOR A DAY, A WEEK OR A PROJECT

Since many of our services are considered CRITICAL, we are continuing to work in plants on a daily basis. We are honored to support the manufacturing industry by helping keep production going, machines running and essential products flowing to consumers in the US.

Covid-19 is proving to be a challenge for manufacturing. Many plants are restructuring to maximize production with fewer people and that means machinery has to be serviced!

If you need maintenance staff, please call us. We can supply skilled tradesmen immediately for a day, a week or for a project.

Call 888-724-3888 to schedule maintenance support.

As we navigate uncharted and unprecedented times, we want our customers to know we are committed to the safety and wellness of our staff and yours. We understand that many of you are in process of setting new guidelines in your respective plants and we are here to help and to implement as needed.

Maintenance Services

Plant maintenance services have been a key component of our business for over 30 years and we look forward to sharing our expertise with you.

Remember, we are not just another contractor, we want to be an extension of your workforce. I guarantee my team will work with your team to make a positive difference.

R. Jerry Sanders

Chairman & CEO

ASSOCIATE US WITH PLANT MAINTENANCE

Has your company adopted a Plant Maintenance Wellness program? Are you looking to reduce your overall annual maintenance and replacement costs? If you answered yes to either question, then it's time to partner with us.

Don't wait to call us when something breaks - let us help you prevent those costly situations! We offer plant maintenance programs to support your budget...not break it!

We've been providing industrial maintenance services for over 30 years and we want to share that EXPERIENCE with you!

On a regular basis, we are onsite providing industrial maintenance services.

Our plant maintenance program is designed to identify areas of preventive improvements that will help you reduce your overall maintenance costs.

Projects range from

- General Preventative Maintenance
- Machine Rebuilds
- Annual Machine Level Checks

Let our expert MAINTENANCE team show you how our solutions work for you!
