JOBS ARE EASIER WITH OUR 140

This is one of, if not the most, powerful lift in the United States.

You'll be amazed with the hydraulic telescoping boom that has a vertical reach to 25 feet!

As manufacturing changes, we are seeing equipment such as presses and dies become heavier and heavier. On a regular basis, we lift 105,000 lb dies for our customers, sometimes on a daily or weekly basis. And, as you know, that means a day to setup a gantry, a day to move and a breakdown install day - that's 3 days! Many of our customers are updating their operations with newer, heavier production elements and they don't have the time traditional rigging equipment requires for the project. That's one of the main reasons we added this lift to our inventory last year - to save you time and money!

DISCOVER SHEAR POWER

Our fabrication shop is excited to announce the recent addition of a new accushear! This heavy duty shear can tackle any application. We are looking forward to offering more efficient cuts up to 1/4" stainless steel. Get in line soon because this machine already has the

CRUNCH AND MUNCH DEMOLITION VIDEOS

Recently, we removed an overhead crane rig. Once it was down, we sheared it up with big power.
